

Dream Think Imagine specializes in the creation of unique, thoughtfully inspired themed environments within the health care setting. Our distinctive, custom art and technology based environments immerse patients and family members of all ages in a positive patient experience that changes the health care delivery model. These creative environments have proven to be a market differentiation by improving patient satisfaction scores, increasing patient referrals, decreasing the need for procedural sedation, and improving employee retention while delivering operational efficiency and cost savings to patients and health systems.

CHOOSE FROM THESE SAMPLES & MORE!

The size and rumble of the mobile X-Ray unit can seem intimidating to patients of all ages. Imagine arriving in the patient's room with a unit that has colorful, vibrant, fun designs and helps turn what can be a stressful exam in to a positive experience.

DTI creates Di-Cuts that take your mobile unit from ordinary into exceptional in a cost effective manner while delivering an experience the patient will remember.

CUSTOM

MAKE IT THE WAY YOU WANT IT!

Imagine the possibilities with a custom theme! Collaborate with DTI artists to create the perfect addition to your mobile unit.

Examples:

Race Car

Airplane

Firetruck

Submarine

Ambulance
